

FUJITSU Enterprise Postgres

Compare Features Across Versions

shaping tomorrow with you

Discover how FUJITSU Enterprise Postgres is taking the power of PostgreSQL to the next level.

FUJITSU Enterprise Postgres 10 is the latest release of enhanced PostgreSQL for enterprises seeking a more robust, secure, and fully supported edition in business environments.

FUJITSU Enterprise Postgres 10 has been designed to deliver the Quality of Service (QoS) that enterprises demand of their databases in the digital world while supporting the openness and extensibility expected of open source platforms, all at a lower cost than traditional enterprise databases. It is an enhanced distribution of PostgreSQL, the open source database platform, with improvements to support enterprise-level workloads and provide improved Deployment and Management.

Feature	PostgreSQL 10	FUJITSU Enterprise Postgres		
		10	9.6	9.5
Data Masking	✘	✔	✔	✔
Database Transaction Log Mirroring	✘	✔	✔	✔
