To use PostGIS with Fujitsu Enterprise Postgres 16, you need to apply the fixes that correspond to the server functionality.

Refer to the table below and refer to the build instructions for the PostGIS version that corresponds to the fix number.

PostGIS is not available if you are using an edition or OS that is not listed in the table, and if you have not applied the revision number corrections listed.

System	Edition	OS	Fix number	PostGIS version	Corresponding PostGIS build instructions	OSS group
Linux64-EM64T	Advanced Edition 16	Red Hat(R) Enterprise Linux(R) 8	First edition	3.4.2	Fujitsu Enterprise Postgres 16 PostGIS 3.4 Build Instructions	FEP16_oss_group_01
		Red Hat(R) Enterprise Linux(R) 9	First edition			
		SUSE Linux Enterprise Server 15	First edition			
	Advanced Edition with Cryptographic Module 16	Red Hat(R) Enterprise Linux(R) 8	First edition			
		Red Hat(R) Enterprise Linux(R) 9	First edition			
		SUSE Linux Enterprise Server 15	First edition
