

Fujitsu Enterprise Postgres 18 for Kubernetes

Release Notes

Linux

J2UL-RN18-02ENZ0(00)
March 2026

Preface

Purpose of this document

This document provides release information for Fujitsu Enterprise Postgres for Kubernetes.

Structure of this document

This document is structured as follows:

[Chapter 1 New Features and Improvements](#)

Explains the new features and improvements in this version.

Abbreviations

The following abbreviations are used in this manual:

Full Name	Abbreviations
Fujitsu Enterprise Postgres for Kubernetes	FEP
Fujitsu Enterprise Postgres	
Custom Resource	CR
Universal Base Image	UBI
OpenShift Container Platform	OCP
Mutual TLS	MTLS

Abbreviations of manual titles

The following abbreviations are used in this manual as manual titles:

Full Manual Title	Abbreviations
Fujitsu Enterprise Postgres for Kubernetes Release Notes	Release Notes
Fujitsu Enterprise Postgres for Kubernetes Overview	Overview
Fujitsu Enterprise Postgres for Kubernetes User's Guide	User's Guide
Fujitsu Enterprise Postgres for Kubernetes Reference	Reference

Trademarks

- Linux is a registered trademark or trademark of Mr. Linus Torvalds in the U.S. and other countries.
- Red Hat and all Red Hat-based trademarks and logos are trademarks or registered trademarks of Red Hat, Inc. in the United States and other countries.
- S/390 is a registered trademark of International Business Machines Corporation in the United States or other countries or both.
- Power and Power Systems are registered trademarks of International Business Machines Corporation in the United States or other countries or both.

Other product and company names mentioned in this manual are the trademarks or registered trademarks of their respective owners.

Export restrictions

If this document is to be exported or provided overseas, confirm legal requirements for the Foreign Exchange and Foreign Trade Act as well as other laws and regulations, including U.S. Export Administration Regulations, and follow the required procedures.

Issue date and version

Edition 2.0: March 2026
Edition 1.0: December 2025

Chapter 1 New Features and Improvements.....	1
1.1 Features Added FEP18 Operator in v8.2.0.....	1
1.1.1 AI Application Development Support.....	1
1.1.1.1 MCP Server Feature for Business Data Utilization.....	1
1.1.2 Operation.....	1
1.1.2.1 Geographic Distribution Across Multiple Regions (n:n).....	1
1.1.3 OSS.....	2
1.1.3.1 PostgreSQL Rebase.....	2
1.1.3.2 OSS Updates Provided.....	2
1.2 Features Added FEP18 Operator in v8.1.0.....	2
1.2.1 AI Application Development Support.....	2
1.2.1.1 In-database Inference.....	2
1.2.2 Operation.....	2
1.2.2.1 Multi-master replication.....	2
1.2.3 OSS.....	3
1.2.3.1 PostgreSQL Rebase.....	3
1.2.3.2 OSS Updates Provided.....	3

Chapter 1 New Features and Improvements

This chapter explains Fujitsu Enterprise Postgres for Kubernetes new features and improvements added in this version.

Table 1.1 New features and improvements

Version and level	Classification	Feature
FEP 18 Operator image tag:v8.2.0	AI Application Development Support	MCP Server Feature for Business Data Utilization
Container image tag:ubi9-18-2.0	Operation	Geographic Distribution Across Multiple Regions (n:n)
	OSS	PostgreSQL Rebase
		OSS Updates Provided
FEP 18 Operator image tag:v8.1.0	AI Application Development Support	In-database Inference
Container image tag:ubi9-18-1.0	Operation	Multi-master Replication
	OSS	PostgreSQL Rebase
		OSS Updates Provided

1.1 Features Added FEP18 Operator in v8.2.0

This section explains the improvement in Fujitsu Enterprise Postgres for Kubernetes v8.2.0.

1.1.1 AI Application Development Support

This section describes features that support AI application development.

- MCP Server Feature for Business Data Utilization

1.1.1.1 MCP Server Feature for Business Data Utilization

This feature enables the utilization of business data stored in Fujitsu Enterprise Postgres for Kubernetes v8.2.0 via the Model Context Protocol (MCP). Accessing business data stored in the database through MCP facilitates easier integration between AI applications and the database. Additionally, users can easily utilize business data from AI applications.

See

Refer to "Utilizing Business Data via the MCP Server" in the User's Guide for details.

1.1.2 Operation

This section explains the new feature related to Operation.

- Geographic Distribution Across Multiple Regions (n:n)

1.1.2.1 Geographic Distribution Across Multiple Regions (n:n)

While Fujitsu Enterprise Postgres for Kubernetes v8.1.0 only supported a 1:1 region configuration, it now enables configurations across multiple regions (n:n).

See

Refer to "Multi-master Replication" in the User's Guide for details.

1.1.3 OSS

This section explains the new feature related to OSS:

- PostgreSQL Rebase
- OSS Updates Provided

1.1.3.1 PostgreSQL Rebase

The PostgreSQL version that Fujitsu Enterprise Postgres is based on is 18.3.

1.1.3.2 OSS Updates Provided

The OSS provided by Fujitsu Enterprise Postgres and Fujitsu Enterprise Postgres for Kubernetes has been updated.

.....
Refer to "OSS Supported by Fujitsu Enterprise Postgres for Kubernetes" in the Overview.
.....

1.2 Features Added FEP18 Operator in v8.1.0

This section explains the improvement in Fujitsu Enterprise Postgres for Kubernetes v8.1.0.

1.2.1 AI Application Development Support

This section describes features that support AI application development.

- In-database Inference

1.2.1.1 In-database Inference

Provides the ability to import and use ONNX format models in the database. In Fujitsu Enterprise Postgres for Kubernetes v8.1.0, only embedded models with vector transformations can be imported. You can make the imported model available and implement vector transformations for text semantic retrieval.

.....
Refer to "Setup of Knowledge Data Management" in the User's Guide for details.
.....

1.2.2 Operation

This section explains the new feature related to Operation.

- Multi-master replication

1.2.2.1 Multi-master replication

By synchronizing updates bidirectionally between multiple sites and making it possible to write data from any node, high availability, improved performance, and distributed operation are achieved.

.....
Refer to "Multi-master Replication" in the User's Guide for details.
.....

1.2.3 OSS

This section explains the new feature related to OSS:

- PostgreSQL Rebase
- OSS Updates Provided

1.2.3.1 PostgreSQL Rebase

The PostgreSQL version that Fujitsu Enterprise Postgres is based on is 18.0.

1.2.3.2 OSS Updates Provided

The OSS provided by Fujitsu Enterprise Postgres and Fujitsu Enterprise Postgres for Kubernetes has been updated.

See

.....
Refer to "OSS Supported by Fujitsu Enterprise Postgres for Kubernetes" in the Overview.
.....
